

TENANT BULLETIN

Sewer Rehabilitation Project Underway

- What:** To maintain and improve the reliability of the airport's underground utility infrastructure, a sewer rehabilitation project is currently underway. This work is part of the airport's ongoing commitment to maintaining safe, efficient, and dependable facilities for our customers, tenants, and visitors.
- When:** Wednesday, September 3, 2025, at 10:00 p.m. (2200) to Monday, August 31, 2026 at 6:00 a.m. (0600)
Work activities will occur in phases throughout the airport to minimize disruption to airport operations and tenant activities.
- Where:** North Las Vegas Terminal: Restrooms, Service Counter, Public Areas.
See attached exhibit for more information.
- Why:** As part of the rehabilitation process, crews will be cleaning existing sewer lines and accessing underground sewer structures at various locations throughout the airport.
During this work, you may occasionally notice temporary sewer odors in certain areas. These odors are a normal and expected part of the cleaning and rehabilitation process and do not indicate a service disruption or safety concern.

Why Are Odors Occurring?

Temporary odors may result from:

- Cleaning and flushing of existing sewer lines
- Opening sewer access holes and manholes during construction activities
- Venting of sewer gases while rehabilitation work is being performed

Project crews are taking measures to minimize impacts whenever possible.

Impacted

Tenants: We appreciate your patience and understanding as we complete these important infrastructure improvements. These upgrades will help extend the service life of the airport's sewer system and improve long-term reliability.

If anyone has questions, they may contact:

Jose Perez – (415) 595-4388 (Day Contact)

Thomas Dimartino – (702) 881-2531 (Night Inspector)

For additional information, contact the Airport Control Center at 702-261-5125, option 1.
