

# LAS Airlines

## Domestic & International

- Website
- Phone Number
- Provide logos (see below)

## Charter Airlines:

- Provide logos (see below)

## Logos:

Provide a vector file (.eps or .ai) of airline logo that can be displayed horizontally or stacked. The vector file will also allow the logo to be easily resized for additional signage if needed.

## Website and interactive directories:

Logo for LAS website should be 171x42 pixels in .svg or vector format. The logo will be displayed on the website on either a light gray or white background. A white version of the logo will be displayed on a dark blue background.

Atlanta	09:35 AM   On Time		460	T1   Gate D36	Carousel 16

## FIDS/BIDS Signage:

FIDS/BIDS images are to be made with the airline code and dimensions in the name. The final files need to be .jpg. If the vector file (.eps or .ai) is submitted to LAS, we will create the FIDS/BIDS images with a white background unless another color is specified.

If the airline wants to design a background, the sizes are below along with a sample using the McCarran logo to see how the logo would be oriented and help determine when to use a stacked logo vs. horizontal.

### Terminal 1 Sizes:

- XX-200x200.jpg
- XX-480x480.jpg
- XX-640x480.jpg
- XX-1366x150.jpg
- XX-200x100.jpg
- XX-800x240.jpg
- XX-1366x768.jpg
- XX-1920x210.jpg
- XX-1920x768.jpg

### Terminal 3 Sizes:

- XX-64x384.jpg
- XX-240x30.jpg
- XX-420x120.jpg
- XX-480x1080.jpg
- XX-800x240.jpg
- XX-958x768.jpg
- XX-1920x210.jpg
- XX-1920x768.jpg
- XX-1920x1080.jpg

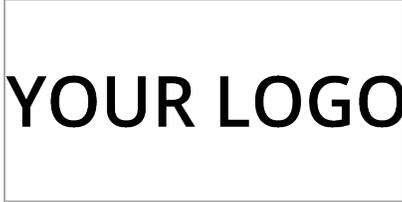

### Gate Pylon

**Size:** 1164 x 464 pixels

**Format:** transparent .png (no background, just logo)

**Terminal 1 Sizes:**
